

Appendix D: Mathematics, Science, and History– Social Science Standards Tests

Table 24. Requirements for Taking the California Mathematics Standards Tests

Test	Students Required to Be Tested
CST for Mathematics (Grade 7)	Students in grade seven who do not meet the criteria for the CST for Algebra I
Algebra I	Students in grades seven through eleven who completed an Algebra I course in the 2011 summer session or will complete it during the 2011–12 school year
General Mathematics	Students in grades eight and nine who are either: <ul style="list-style-type: none"> • Not yet taking an Algebra I course, or • In the first or second year of a two- or three-year Algebra I course, or • Taking any mathematics course prior to Algebra I, or • Taking no mathematics course
Geometry	Students in grades eight through eleven who completed a Geometry course in the 2011 summer session or will complete it during the 2011–12 school year
Algebra II	Students in grades eight through eleven who completed an Algebra II course in the 2011 summer session or will complete it during the 2011–12 school year
Integrated Mathematics 1	Students in grades eight through eleven who completed a course aligned with the Integrated Mathematics 1 test blueprint in the 2011 summer session or will complete it during the 2011–12 school year
Integrated Mathematics 2	Students in grades eight through eleven who completed a course aligned with the Integrated Mathematics 2 test blueprint in the 2011 summer session or will complete it during the 2011–12 school year
Integrated Mathematics 3	Students in grades eight through eleven who completed a course aligned with the Integrated Mathematics 3 test blueprint in the 2011 summer session or will complete it during the 2011–12 school year
Summative High School Mathematics	Students in grades nine through eleven will take the CST for Summative High School Mathematics if: <ul style="list-style-type: none"> • They completed Algebra I, Algebra II, and Geometry courses in previous years and completed an advanced mathematics course in the 2011 summer session or will complete it during the 2011–12 school year; or • They completed a course aligned with the Integrated Mathematics 3 test blueprint in a previous year and completed an advanced mathematics course in the 2011 summer session or will complete it during the 2011–12 school year; or • They completed Algebra I, Algebra II, and Geometry courses in previous years and are taking no mathematics course this year; or • They completed a course aligned with the Integrated Mathematics 3 test blueprint in a previous year and are taking no mathematics course this year; or • They are in grade ten or grade eleven and took the CST for Summative High School Mathematics in a previous year; those students retake the CST for Summative High School Mathematics.
Mathematics Standards Test Not Required	Students in grades ten and eleven who are in the first year of a multiyear Algebra I course or taking a Business Mathematics course or a general mathematics course; or students who are taking no mathematics course and did not previously complete Algebra II or a course aligned with the Integrated Mathematics 3 test blueprint
