I understand that I am being interviewed as an ES Candidate for the above school based on my willingness to accept the type of students indicated above in my ES load. I understand that if I feel overwhelmed, I am free to lower my student count upon request at any time to a minimum of 10 students, serving my present students until they can be placed with another ES. I also understand that official school "at will" employment does not begin until the items listed in the ES Employment Info document have been completed and I have acquired a working, compatible computer system and ISP. I understand that the school cannot promise to place a certain requested number of students with any ES, at any time during employment. I have read all the documents listed in the ES Employment Info sheet that was emailed to me at the end of my interview, understand that this ES position is an "at will" position, and I agree to abide by all school policies and procedures if selected as an ES Candidate.
