Testing Tips

- **Make sure that your student goes to bed early and gets a full nights rest prior to testing**
- **Make sure that your student gets a good breakfast prior to testing**
- **Send your student with a snack & bottled water if needed for break time**
- **Prepare your student for testing by using test prep materials and/or Edusoft exams**
- **Let your student know that the results will not affect their grades, however we do want them to do their best**
- **Let the student know that they are not penalized for wrong answers so encourage them to make their best choice for each question, even if they are not sure of the answer.**
