* HOUSSE points are awarded solely at the discretion of each school district; the district must approve the professional development activity and determine its point value. "Possible points" listed above are suggestions based on CDE guidelines for hours and content.

What are the California Subject Matter Projects?

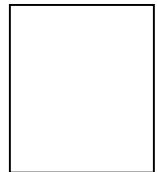

The California Subject Matter Projects are networks of K-16 educators who work with teachers, administrators, parents, and students to improve instruction for all students in California classrooms. The Region Six CSMPs include seven separate projects that serve Stanislaus, San Joaquin, Amador, Calaveras and Tuolumne counties. These projects deliver a variety of professional development courses and intensive leadership institutes for teachers; they offer symposiums and academic camps for teachers, parents, and students; they also enter into staff development partnerships with schools and districts. The courses listed in this catalog represent just one aspect of their combined outreach.

Look inside for standards-based professional development opportunities for teachers in all content areas:

English-Language Arts	pages 1-2
Math.....	page 5
Science.....	pages 4-5
Social Science	page 3
Visual & Performing Arts.....	page 4

All programs meet CDE and NCLB guidelines for professional development.
