# ODYSSEYWARE

**OdysseyWare™** uses a fully interactive interface to guide students in concentrated study. Using the exclusive Focus Learning System, the software automatically guides the rate of the student's progress and sets the level of mastery achievement. Incorrect answers are repeated with a review of the study material. Once students have grasped chapter concepts and information, they continue on through the course. The program's instant-grading component grades questions as the student completes them, providing instant feedback. The teacher's workload is reduced by 90 percent or more because OdysseyWare grades all objective answers automatically, computes and records the scores, and comes with a built-in lesson planning feature. That's extra time you can spend one-on-one with your student. Simply order the grade level and/or subject you need, from 3-12, and see how well OdysseyWare can work for you!

## System Requirements

- Pentium 133 or better
- Windows 95/98/2K/XP
- 4x CD-ROM or better
- 16MB RAM
- Modem
- 16-bit Sound Card
- SVGA Video Card, 640x480x256 Colors
- Printer Highly Recommended
- Internet Access
