A-G Course Textbook List, 2008-2009

This book list is still a work in progress and does not yet contain all of the courses that may be submitted for A-G. Please note the revision date above, and check back to this list before ordering for each course or contact the Guidance Department.

2008-2009 A-G Courses are textbook-specific! This is a change from previous years when families could use any textbook that met the course description.

Guidance Department: Determines which courses will be submitted to UC for approval by October 1, 2008; writes the course description/assignments, and lists the textbook for that course. Once approved, the courses will be retroactive to the beginning of the school year.

ES Training: Contact ES Training if you previously ordered a new A-G textbook that cannot now be used because the textbook being submitted is different from yours.

Curriculum Department: Coordinates input from HQT SME's, the Curriculum Department, and the Guidance Department to determine which textbook will be selected for each A-G Course. Posts ordering and pricing information for A-G Courses in the ES Secure Website/Vendor Information. Contact the Curriculum Department if any A-G Course ordering information is not in the system.

A-G Algebra 1

Holt California Algebra 1, Student Edition, Holt, Rinehart and Winston, 2008, ISBN #9780030923395

A-G Geometry

Holt Geometry, Student Edition, Holt, Rinehart and Winston, 2008, ISBN #9780030923456

A-G Algebra 2

Holt Algebra 2, Student Edition, Holt, Rinehart and Winston, 2008, ISBN #9780030923517
