CaliQity

Provided by the  K-12
HIGH
SPEED
NETWORK

CaliQity is a Feature-Rich, Award-Winning Learning Management System and Learning Object Repository, designed specifically for the K-12 environment, all in one place.

Why **CaliQity**?

CaliQity gives you Reactor™ Repository.

Reactor™ Repository – the most comprehensive learning object repository in the world – is fully integrated into the CaliQity™ e-Learning Platform, and empowers teachers by allowing them to create and share curriculum content back and forth with teachers from around the state and across the nation. This ever-growing source of learning objects is fed from established, award-winning curriculum suppliers, as well as caring and experienced teachers from across the country.

CaliQity offers more.

In addition to enabling you to enroll students, make assignments, administer tests, track and calculate grades, and use all of the other expected functionality of a learning management system, the CaliQity e-Learning Platform also offers an unmatched repository of learning objects through Reactor to create your curriculum marketplace.

CaliQity is affordable.

The CaliQity e-Learning Management System is free to California school districts. There is no extra hardware, software or licenses to buy in order to access it. If districts choose to buy licensed courses from the Reactor Repository (which are delivered by the CaliQity LMS), the costs involved are affordable and designed to increase access to such resources. The Learning Management System itself is free to school districts.

CaliQity is flexible.

CaliQity is ideal for integrating e-learning technology into a traditional classroom, for enabling effective distance learning, or for creating a powerful blended learning environment that combines the best of both worlds.

Does your Learning Management System...

- Have a fully integrated standards-based repository that allows you to search for and deliver learning objects without leaving the LMS? In only three clicks?
- Allow you to customize your LMS environment?
- Allow you to modify content by reordering, hiding, and deleting content, or by adding learning objects, assessments, assignments or web pages?

CaliQity does, for **FREE!** And is so much more than an LMS!

With *Cali*Qity, Districts can:

- Allow for multiple providers to deliver content on a single platform
- Purchase and deliver Currium courses for \$30.00 per student per year
- Create custom courses for district/state distribution
- Customize the system utilizing hundreds of different options
- Control the digital environment locally

With *Cali*Qity, Your Teachers can:

Have total classroom management at their fingertips, including:

- Assessment Engine
- Global Calendars
- Gradebook
- Assignment Dropboxes
- Discussion Boards
- Track student activity click by click
- Course creation and development tools
- Closed-circuit Message Center
- Real-Time Changes
- Ability to search for content and learning objects by a specific academic state standard(s)
- Individualize education to meet varying student needs by:
 - Customizing courses
 - Adding custom content pages and assessments
 - Creating personal assignment boxes
 - Reorder/Rename content items (drag-and-drop)
 - Hide or Delete items
 - Drag-and-drop Learning Objects from the Learning Object Repository (by Academic Standard)
 - Drag-and-drop sections of other courses into the class

The California K-12 High Speed Network (K12HSN) is a program funded by the California Department of Education. K12HSN provides network connectivity, Internet services, teaching and learning application coordination, and videoconferencing coordination and support for California's K-12 public schools. K12HSN was established in an effort to increase learning opportunities for all K-12 students while expanding professional development and information resources to teachers and school administrators.

The *Cali*Qity e-Learning Platform is a unique and comprehensive online learning system. It includes:

- *The most complete, feature-rich e-Learning Platform of virtual education services and products.*
- *The best online curriculum anywhere.*
- *Core curriculum and assessments matched to State Standards.*

The CaliQity™ e-Learning Platform is high-tech and low-hassle with top-notch hosting services of high reliability, security and availability. You can tailor the entire CaliQity system to accommodate your school's needs right down to your mascot.
